UFO Front Grading Bucket Combi

Front grading bucket for excavators. The Combi front grading bucket from Ufo is equipped with double couplers.

The front grading bucket makes the excavator even more versatile. Thanks to the double attachments, the bucket can be used both for Ufo's undercarriage tool lift and for the excavator's stick.

Used, for example, to transport materials or tools short distances at a workplace without using a trailer. Can also be used for simpler excavation work, grading or planning work.

Suitable for excavators between 14 and 20 tonnes.

Characteristics

- Specially designed for groundwork.
- Equipped with double couplers.
- A low rear plate and long bucket bottom base provide excellent ground control and perfect visibility.

Teknisk data

Item no.	Product name	Width (mm)	Depth (mm)	Weight, approx. (kg)	Recommended machine weight (tonnes)
23259-A01AL90S60	Front grading bucket, S60 and BM hooks	2586	1100	855	
23290-A01AL90S70	S70 digging bucket and BM hooks	2900	1500	1250
