Götene Grading beam with roller

Grading beam with roller from Götene for efficient compaction and levelling of surfaces.

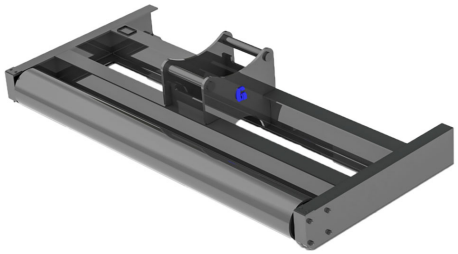

Robust construction for high demands. Roller for optimal compression. Available in various widths.

Compresses, grades and levels the material very effectively.

Suitable for excavators between 8 and 30 tonnes.

Characteristics

- Powerful roller with substantial bearings for optimal compression.
- Robust and strong construction.
- Available in different widths.
- Grading beam with side beams for effective material handling.
- Compresses, grades and levels the material very effectively.
- S-coupler is standard, other couplers are available as optional extras.

Teknisk data

Item no.	Product name	Weight, approx. (kg)	Width (mm)	Roller, diam (mm)	Recommended machine weight (tonnes)
87200	Grading beam - with roller 2000	375	2000	250 mm	
87230	Grading beam - with roller 2300	425	2300	250 mm	
87250	Grading beam - with roller 2500	480	2500	250 mm	
87270	Grading beam - with roller 2700	500	2700	250 mm	
87300	Grading beam - with roller 3000	550	3000	250 mm
