Götene Grading Bucket TR 395-2200 litres

The TR grading bucket from Götene is specially constructed for tiltrotators with folded corners and adapted angles.

The Götene Grading bucket TR is a very popular grading bucket for tiltrotators, and thousands have been sold.

The design allows the material to release very well.

Wear strips are standard. As an alternative to wear strips, double back side plates/double bucket bottom plates can be provided if a flat back is desired. Also available with an extended base and a welded cap.

Suitable for excavators between 8 and 45 tonnes.

Characteristics

- Robust construction with angles for optimal use.
- Folded corners for tiltrotators.
- The material releases very well.
- Wear strips are standard.
- As an alternative to wear strips, double back side plates/double bucket bottom plates can be provided if a flat back is desired.
- HD = Heavy Duty design for reliability and durability.
- An optional S-mount is included as standard, B-mounts are available as an option.

Options

- Extended bucket bottom by 100 mm (increases the volume about 5-10% depending on the model).
- Welded cap on the grading bucket.
- Double bucket bottom plates instead of wear strips.

Teknisk data

Item no.	Product name	Volume SAE	Weight, approx. (kg)	Width (mm)	Recommended machine weight (tonnes)
