Götene Grading Bucket Nordic

Grading bucket from Götene's Nordic series, adapted for tiltrotators. The folded-in corners make the bucket easy to manoeuvre during levelling work.

The grading buckets have an optimized and conical opening angle with flanged corners adapted for tiltrotators.

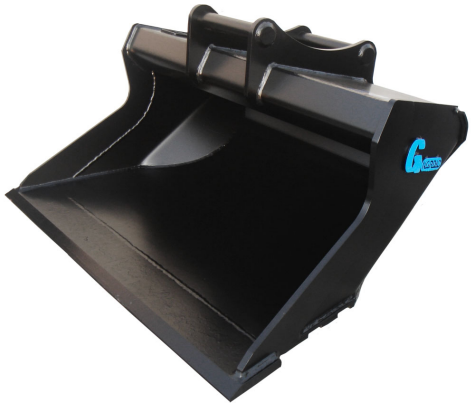

The Nordic series grading buckets are available with a extended edge or teeth. They have a one-piece folded roof and backside to save weight and contribute to better fuel economy.

The buckets are throughout made of Hardox 500 TUF for best durability.

Suitable for excavators between 8 and 22 tonnes.

Characteristics

- The grading buckets have a conical opening angle.
- Turned in corners
- Optimal angles for best digging and dumping.
- The bucket is entirely constructed from Hardox 500 TUF.
- Backside and roof top in one piece.
- Wear strips are standard.

Note: Grading buckets in the Nordic series are only available with S-type quick coupler S45-S70. Specified weights in the product data table may differ depending on the attachment size.

Teknisk data

Art. No.	Product name	Volume SAE	Width (mm)	Weight, approx. (kg)	Recommended machine weight (tonnes)
49205	Grading bucket RT 1200 Nordic	400	1200	248	8 - 9
49208	Grading bucket RT 1300 Nordic	440	1300	266	8 - 10
49209	Grading bucket RT 1400 Nordic	480	1400	285	8 - 10
49210	Grading bucket RT 1500 Nordic	520	1500	318	10 - 12
49214	Grading bucket RT 1600 Nordic	560	1600	336	11 - 13
