Siljum Multi Snow Plough MP3000

Item number: 622XX-XX-XXXX

The Siljum Multi Snow Plough MP3000 is a great and flexible snow-clearing tool for smaller machines.

The Siljum classic Multi Snow Plough MP3000 is a very smooth and useful multi plough. It is very suitable for smaller streets, as well as pedestrian and cycle paths. With its spring loaded centre section and floating wings, snow clearing is made easy. The Multi Snow plough MP3000 is also available with fixed, curved wings.

The Siljum Multi Snow Plough MP3000 is perfect for smaller machines. Suitable for wheel loaders and tractors with a machine weight of 5 to 8 tonnes.

The plough is delivered as standard with a TRIMA mount, but other mounts as L30 and L50-L120 are available as an option.

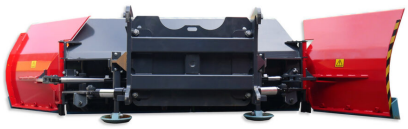

Characteristics

- Hydraulically controlled wings that can be angled 165 degrees.
- The approach angle on the road is 15 degrees.
- The main center plough blade swings 40 degrees with a horizontal oscillation of 10 degrees to either side.
- Can be delivered with 2 or 4 hoses.
- A safety system with shock valves allows the blades to spring away when hitting an obstacle.
- Easily replaceable cutting edges.

Mounts and options

- Attachment: The Multiplough MP3000 can be adapted to all machine attachments, for example Trima, L30 and L50-L120.
- Optional extras: Spring-loaded wing, width 850 mm, type Multi Snow Bucket.
- Can be delivered with 2-hoses or 4-hoses.
